Journal:  
Talk with a grown-up about what season it is. How do you know? What are signs of spring? What is something you like to do in spring that you can't do in Winter? Remember to say your thoughts in complete sentences. In your journal draw a picture, then try writing the sounds you hear as you write about your picture.  
Tip for adults: Write out the alphabet in lower case letters on a strip of paper. This will give your child a reference as they connect the sound the letter.

[Join Mme Mills for calendrier!](#)

Use these "Would you rather" questions for some good conversation building. Ask your child questions about their answers to get them thinking through the decision making process. Be sure to have them answer in complete sentences, not one word answers. Have fun!

**Gross motor play:**

Draw letters randomly on your driveway or sidewalk. Call out a letter or letter sound and have your child run and stand on that letter.

**Scissor Skills:**

**[Flower Cutting Activity](#)**

Here is a fun activity to practice cutting skills. If you have a printer, please click on the above link to access the printables. If you do not have a printer just grab a glass and trace some circles. Use the attached document as a template. Grab any items around the house to add to the center of the flowers.

**Gross motor obstacle course play:**

Use pillows, boxes, hula hoops, chairs or anything you have in your house and set up an obstacle course. The kids can help make the course, run through it and keep adjusting it to make it better. They can also help clean up!

Build balancing skills by:

- Walking on a tape line
- Place a book on your head as you walk
- Carry a ball in a spoon

Here's a few links for more ideas. [Video](#) or [Blog Post](#)

**Fine motor play:**

Grab your playdough, dice, straws, spaghetti, rigatoni cheerios, or whatever you have on hand. Roll the playdough into a ball and place straws or spaghetti into the dough. Next roll a dice and add that many cheerios or rigatoni pieces. Roll again. Who can fill their pole first?
